HAND DELIVERED

Mr. Robert Casey, Jr., President
Delaware River Recycling, Inc.
Cambridge and Harrison Avenues
Camden, NJ 08105

Re: Modification to General Approval
Delaware River Recycling
City of Camden, Camden County
Facility No. 0408001250

Dear Mr. Casey:

This letter is in response to your General Approval Modification Request dated March 17, 1999 and the subsequent submittals dated April 28, 1999 and April 29, 1999, wherein you requested the following modifications:

1. The addition of Block 812, Lot 4 to the recycling center operation.
2. The addition of source separated tires and wood as a Class B recyclable material to be received, stored, processed or transferred at the facility.
3. The addition of stockpile areas for unprocessed and processed tires and wood material.
4. A revised site plan.

Our review of your requests is completed, and as a result, we have no objection to your proposed modifications. Enclosed is a copy of your revised General Approval.

The revised approval indicates the modifications to the conditions effected, Conditions A.1, B.1, C.3, C.4, C.5, C.6, C.8, and C.9.

Conditions have been incorporated within this Approval that must be complied with in order for it to remain valid. In addition, some conditions have been added and/or updated in this Approval, which were not present in your original approval. These are conditions which are currently being included in all Class B Approvals.

If you have any questions regarding this matter, please contact Carolyn Hansel of my staff at (609) 984-6650 or by e-mail at chansel@dep.state.nj.us.

Sincerely,

Thomas Sherman
Assistant Director
Office of Permitting &
Technical Programs

RECYCLING CENTER
GENERAL APPROVAL CONDITIONS
FOR RECEIPT, STORAGE, PROCESSING OR TRANSFER
OF CLASS B RECYCLABLE MATERIALS

Under the provisions of N.J.S.A. 13:1E-1 et seq. and N.J.S.A. 13:1E-99.11 et seq., known as the Solid Waste Management Act and the New Jersey Statewide Mandatory Source Separation and Recycling Act, respectively, and pursuant to N.J.A.C. 7:26A-1 et seq., known as the Recycling Regulations, this Approval is hereby issued to:

DELAWARE RIVER RECYCLING, INC.

MUNICIPALITY: City of Camden
BLOCK NO.(S): 811, 812 and 816
LOT NO.(S): 8, 4 and 2
COUNTY: Camden
CAPACITY: 2000 TPD
RECYCLING CENTER NUMBER: 0408001250
APPROVAL EXPIRATION DATE: September 20, 2003

This Approval is subject to compliance with all conditions specified herein and all regulations promulgated by the Department of Environmental Protection or as may be amended in the future. All references to specific regulations include any future amendments thereto.

This Approval shall not prejudice any claim that State may have to riparian land, nor does it allow Delaware River Recycling, Inc., or its principals to fill or alter, in any way, lands that are deemed to be riparian, wetlands, stream encroachment areas to flood plains, or that are within the Coastal Area Facility Review Act (CAFRA) Zone or are subject to the Pinelands Protection Act of 1979, nor shall it allow the discharge of pollutants to waters of this State without prior acquisition of the necessary grants, permits or approvals from the Department of Environmental Protection.

Compliance with the terms of this Approval does not relieve Delaware River Recycling, Inc., or its principals of the obligation to comply with all applicable State and federal statutes, rules and other permits and municipal approvals or ordinances which are not preempted by the DEP solid waste regulations at N.J.A.C. 7:26-1 et seq. and the recycling regulations at N.J.A.C. 7:26A-1 et seq.

Failure to comply with all the conditions specified herein may result in revocation of this Approval and/or may result in other regulatory or legal actions which the Department is authorized to institute by law.

This Approval shall be effective for not more than five (5) years. An Approval renewal shall be obtained from the Department prior to any activities which are to occur after the expiration of this Approval. In applying for a renewal, applicants shall follow the renewal submission requirements and procedures set forth in N.J.A.C. 7:26A-3.6.

This Approval is non-transferable, except as set forth in N.J.A.C. 7:26A-3.15.

Expiration Date

Recycling Center General Approval
for
Delaware River Recycling, Inc.

A. AUTHORIZED RECYCLABLE MATERIALS

1. Permitted Class B Recyclable Materials

(Revised 6/1/99)

The following source separated Class B recyclable materials which have been separated at the point of generation from other waste materials or separated at a permitted solid waste facility authorized to separate recyclable materials may be received, stored, processed or transferred at this facility:

Asphalt
Concrete
Concrete and Ceramic Block
Brick
Tires
Wood (specifically non-chemically treated and unpainted)

At no time shall the receipt, storage, processing or transferring of non-source separated construction and demolition material be allowed at this facility. The prohibition of this material shall be strictly enforced and any incident shall be considered a serious violation to the conditions of this Approval.

2. By-Products

Incidental amounts of rebar, metal, soil and other by-products which adhere to the Class B recyclable materials as specified in Condition A.1 and returned to the economic mainstream as raw material or products may be received, stored, processed or transferred at this facility. Its receipt shall not be separately accounted for but its storage and end-markets shall be subject to specific conditions of this Approval.

3. Contaminants

The maximum amount of allowable contaminants, as defined in N.J.A.C. 7:26A-1.3, in each incoming load of Class B recyclable materials for acceptance shall be limited to 1% by volume.

Incidental by-product materials included within the Class B recyclable materials shall not be considered to be contaminants.

B. DESIGN AND CONSTRUCTION

The construction of this facility shall be in accordance with the provisions of N.J.A.C. 7:26A-1 et seq., the New Jersey Uniform Construction Code, the approved documents listed below and this Approval.

1. Approved Documents

(Revised 6/1 /99)

? Site Plan; prepared by American Resource Consultants, Inc., dated April 22, 1999, signed and sealed on May 11, 1999 by Gian C. Singla, PE.

- ? Robert Casey, Application for General Approval to operate a Class B Recycling Center, received on May 25, 1993.
- ? Letter and attachments, prepared by Robert R. Casey and received on July 14, 1993.
- ? Harrison Avenue Recycling, Modification Request and attachments, received April 3, 1995, prepared and signed by Robert R. Casey.
- ? Delaware River Recycling, Inc., - Letters dated October 30, 1998 regarding the transfer of ownership of Harrison Recycling, Inc, to Delaware River Recycling Inc., submitted by Robert R. Casey, Jr.
- ? Delaware River Recycling, Inc. – Lease agreement entered into between Delaware River Recycling, Inc. and Robert R. Casey and Anita M. Casey, beginning date September 1, 1998, ending date September 20, 2003.
- ? Delaware River Recycling, Inc. notification of transfer of ownership of Harrison Recycling, Inc. to Robert R. Casey, Jr. (Delaware River Recycling, Inc.), signed by Robert R. Casey, Sr. and Robert R. Casey, Jr., dated April 1998.
- ? Delaware River Recycling, Inc. Modification Request signed by Robert R. Casey, Jr., dated March 17, 1999.
- ? Delaware River Recycling, Inc., letter and attachments prepared by American Resource Consultants, Inc., signed by Stuart H. Clement III, dated April 29, 1999.
- ? Delaware River Recycling, Inc., Air Permit Application dated May 12, 1999, prepared by American Resource Consultants, Inc., signed by Stuart H. Clement III, dated May 12, 1999.

C. RECYCLING CENTER OPERATIONAL STANDARDS

The operation of this facility shall be in accordance with the provisions of N.J.A.C. 7:26A-1 et seq., the standards set forth herein and the approved documents specified in Condition B.1. Where any discrepancy exists, the terms of this Approval shall prevail.

1. Hours of Operation

Hours of operation for receiving, storing, or transferring source separated recyclable material as specified in Condition A.1 of this Approval shall be twenty-four (24) hours daily, seven (7) days a week. The hours of operation for processing source separated recyclable material as specified in Condition A.1 of this Approval shall be limited to 7:00 a.m. to 11:00 p.m., seven (7) days a week.

2. Residue

Residue generated, as a result of processing source separated recyclable materials shall not exceed 1% by volume of the daily amount accepted.

Residue defined as solid waste shall be transported by a NJDEP registered collector/hauler to the facilities approved by the Camden County District Solid Waste Management Plan.

Residue shall be stored separately from recyclable material in containers and in a manner which prevents run-off, leakage or seepage from the residue storage area into, on or around the soil of the residue storage area.

No residue shall be stored on-site for a period exceeding six (6) months without prior approval of the NJDEP.

3. Maximum Daily Capacity (Revised 6/1/99)

The Delaware River Recycling, Inc., recycling center may receive no more than 2,000 tons per day of recyclable materials, consisting of 300 tons per day of wood, 300 tons per day of tires, and 1,400 tons per day of concrete, asphalt, ceramic block, and brick, as specified in Condition A.1 of this Approval.

4. Maximum Weekly Capacity (Revised 6/1/99)

The Delaware River Recycling, Inc., recycling center may receive no more than 14,000 tons per week of recyclable materials, consisting of 2,100 tons per week of wood, 2,100 tons per week of tires, and 9,800 tons per week of concrete, asphalt, ceramic block, and brick, as specified in Condition A.1 of this Approval.

5. Unprocessed Materials Storage (Revised 6/1/99)

- a. The total amount of unprocessed wood material stored on site shall not exceed 16,198 cubic yards and shall be stored only in those areas designated on the approved site plan drawing.

If at any time, the amount of unprocessed wood material stored on site exceeds 16,198 cubic yards, Delaware River Recycling, Inc., shall immediately cease receiving any unprocessed wood material until the amount of unprocessed wood material stored on site falls below 16,198 cubic yards.

- b. The total amount of unprocessed tires stored on site shall not exceed 16,764 cubic yards and shall be stored only in those areas designated on the approved site plan drawing.

If at any time, the amount of unprocessed tires stored on site exceeds 16,764 cubic yards, Delaware River Recycling, Inc., shall immediately cease receiving any unprocessed tires until the amount of unprocessed tires stored on site falls below 16,764 cubic yards

- c. The total amount of unprocessed concrete, asphalt, ceramic block, and brick materials stored on site shall not exceed 4,247 cubic yards and shall be stored only in those areas designated on the approved site plan drawing.

If at any time, the amount of unprocessed concrete, asphalt, ceramic block, and brick materials stored on site exceeds 4,247 cubic yards, Delaware River Recycling, Inc., shall immediately cease receiving any unprocessed concrete, asphalt, ceramic block, and brick materials until the amount of unprocessed concrete, asphalt, ceramic block, and brick materials stored on site falls below 4,247 cubic yards

All unprocessed recyclable material shall not remain on-site, in its unprocessed form, for more than one (1) year.

6. Processed Materials Storage

(Revised 6/1/99)

- a. The total amount of processed wood material stored on site shall not exceed 16,198 cubic yards and shall be stored only in those areas as designated on the approved site plan drawings.

If at any time, the amount of processed wood material stored on-site exceeds 16,198 cubic yards, Delaware River Recycling, Inc. shall immediately cease processing activities until the amount of processed wood materials falls below 16,198 cubic yards.

- b. The total amount of processed tires stored on site shall not exceed 32,396 cubic yards and shall be stored only in those areas as designated on the approved site plan drawings.

If at any time, the amount of processed tires stored on-site exceeds 32,396 cubic yards, Delaware River Recycling, Inc. shall immediately cease processing activities until the amount of processed tires falls below 32,396 cubic yards.

- c. The total amount of processed concrete, asphalt, ceramic block, and brick material stored on site shall not exceed 4,247 cubic yards and shall be stored only in those areas as designated on the approved site plan drawings.

If at any time, the amount of processed concrete, asphalt, ceramic block, and brick material stored on-site exceeds 4,247 cubic yards, Delaware River Recycling, Inc. shall immediately cease processing activities until the amount of processed concrete, asphalt, ceramic block, and brick material falls below 4,247 cubic yards.

All processed material shall be stored separately from residues.

7. By-Products Storage

By-products shall be stored in the container(s) or area(s) as depicted on the approved site plan and shall be removed off-site to the end-markets as referenced in the approved documents.

8. Horizontal and Vertical Controls

(Revised 6/1/99)

Horizontal and vertical control points for the unprocessed and processed materials stockpile areas shall be set and maintained on-site. Horizontal limitation markers shall be set at the corners of the stockpile areas as depicted on the approved site plan. Vertical limitation markers shall be set at locations in close proximity of the stockpile areas and shall clearly establish elevation heights of 20 feet above the existing grade for the unprocessed wood, tire, and concrete, asphalt, ceramic block, and brick material stockpile areas and 20 feet above the existing grade for the processed wood, tire and concrete, asphalt, ceramic block, and brick material stockpile areas.

Metal pipe or metal rods or the equivalent as approved by the Department shall be used to establish these control points. Within approximately thirty (30) days of the acceptance date of this Approval, a joint site inspection shall be held at the facility between the owner/operator and representatives of the Department for the purpose of establishing the locations of these markers.

9. Commingling

(Revised 6/1/99)

Delaware River Recycling, Inc., may receive, store, process or transfer source separated concrete, asphalt, ceramic block and brick separately or in a commingled manner. The commingling of source separated tires and source separated wood materials with any materials is prohibited.

10. Waterfront Development and Stream Encroachment

This recycling center shall be operated in a manner which is in compliance with the Waterfront Development Permit issued pursuant to N.J.S.A. 12:5-3 and the Stream Encroachment Permit Waiver letter issued on August 30, 1993.

11. Applicable Regulations

The operation and related activities of this recycling center shall be in conformance with all applicable federal, State, county, municipal and local statutes, rules and ordinances including but not limited to nuisance, noise, fire and safety codes.

12. Safety Procedures

The operation of the recycling center shall be in conformance with the Occupational Safety and Health Act (OSHA) regulations as contained in the General Industry Standards 29 CFR 1910. Construction activities shall be in conformance with the OSHA regulations as contained in the Construction Industry Standards 29 CFR 1926. A copy of the safety procedures shall be posted on-site.

13. Housekeeping

Routine housekeeping and maintenance procedures shall be implemented within the recycling center interior to prevent the accumulation of litter, dust and debris, and to maintain general cleanliness in the working environment.

14. Odor Control

The operation of this recycling center shall not cause any air contaminant, including an air contaminant detectable by the sense of smell, to be present in the outdoor atmosphere in such quantity and duration which is, or tends to be, injurious to human health or welfare, animal or plant life or property, except for malodorous emissions emanating from the recycling center which result in odors in areas over which the owner and/or operator has exclusive use or occupancy.

15. Vector Control

The recycling center shall institute and maintain an effective vector control program at the center, directed by a qualified applicator of pesticides as set forth in the New Jersey Pesticide Control Code N.J.A.C. 7:30.

16. Dust Control

Dust shall be controlled by the spraying of water, the spreading of calcium chloride or equivalent means as approved by this Division.

17. Noise Control

Noise controls shall be implemented so that noise levels generated at the recycling operation shall not exceed the standards set forth by New Jersey State Noise Control Regulations under N.J.A.C. 7:29-1.2.

18. Fire Protection and Emergency Response

Fire fighting and emergency procedures shall be posted and shall include the telephone number of local fire, police, ambulance and hospital facilities.

In the event of an on-site fire, the facility shall immediately notify the local fire official and within 24 hours report the incident to the DEP Hotline at (609) 292-7172

19. Air Pollution Control Permits

All processing equipment shall be operated in a manner which is in compliance with any air pollution control permits issued pursuant to N.J.A.C. 7:27-8 and 7:27-22.

20. Entrance Sign

A legible sign shall be posted and maintained at the entrance to the recycling center and indicate the hours of operation of the recycling center as well as the following information:

- a. A listing of the approved recyclable materials as specified in Condition A.1. of this Approval.
- b. The size, weight or other restrictions regarding materials to be received.
- c. A notice that all vehicles delivering materials to the recycling center will be inspected, and if found to contain contaminants greater than 1% by volume, will be rejected.
- d. A notice that persons bringing materials to the recycling center shall complete and certify a materials receipt form.

21. Soil Tracking Control

Mud, soils or other materials shall not be tracked onto any public roads by any exiting vehicles. Effective measures shall be implemented to comply with this condition.

22. Site Access

Ingress and egress of the facility shall be restricted to Harrison Avenue only.

23. Hazardous Waste

Any suspected or prohibited hazardous waste, as defined at N.J.A.C. 7:26G-5, found in a load accepted at the facility shall not be returned to the generator. Such materials shall be segregated and stored in a secure manner and shall be immediately reported to the NJDEP Environmental Action Hotline at (609) 292-7172. The owner/operator shall secure the name of the collector/hauler suspected of delivering such waste to the facility and related information surrounding the incident, if available, and shall make this information known to the Department's enforcement personnel.

24. Documents On-Site

A copy of the approved documents as referenced in Condition B.1 and a copy of this Approval shall be maintained at the facility and shall be made available for inspection by Department personnel or its designated representatives.

25. End-Markets

All end-markets to which recyclable materials are transported from the recycling center shall remain consistent with those end-markets specified in the approved documents. Any

modification in the actual end-market for a recyclable material specified in Condition A.1 shall be in conformance with N.J.A.C. 7:26A-3.10(f).

26. Right of Entry

The New Jersey Department of Environmental Protection shall have the right to enter and inspect, without prior notice, any building or other portion of the recycling center, or any other location of the company or its affiliated companies at any time.

This right to inspect includes, but is not limited to, the right to engage in the following activities:

- a. Sample any materials on-site;
- b. Photographing or videotaping any portion of the recycling center;
- c. Investigating an actual or suspected source of pollution of the environment;
- d. Ascertaining compliance or non-compliance with the statutes, rules or regulations of the NJDEP, including the conditions of the recycling center approval issued by the NJDEP; or
- e. Reviewing and copying all applicable records, which shall be made available to the NJDEP during an inspection and submitted to the NJDEP upon request.

D. RECORDINGKEEPING AND REPORTING

1. Recordkeeping

In accordance with N.J.A.C. 7:26A-3.17, Delaware River Recycling, Inc. shall maintain daily records of all materials received, stored, processed or transferred at the site. Said records shall be available at all times for inspection and shall indicate, at a minimum, the following:

- a. A daily record of the amounts of each recyclable material by type and municipality of origin which are received, stored, processed or transferred each day, expressed in tons or in cubic yards. Those operators specifying this information in cubic yards shall also indicate the conversion ratio of the materials from cubic yards to tons.
- b. The name, address and telephone number of the end-markets for all recyclable materials transported from the recycling center, including the amount, in tons or cubic yards, transported to each end-market. Those persons specifying this information in cubic yards shall also indicate the conversion ratio of the materials from cubic yards to tons. NJDEP reserves the right to verify all end-market information submitted by Delaware River Recycling, Inc.
- c. The amount of residue disposed of, expressed in tons or cubic yards, including the name and the NJDEP solid waste registration number of the solid waste collector/hauler contracted to provide the haulage/disposal service. Those persons specifying the amount of residue in cubic yards shall also indicate the conversion ratio of residue from cubic yards to tons.

Delaware River Recycling, Inc. shall retain the information for three (3) calendar years following the calendar year for which reporting is required.

2. Reporting

a. Annual Report

In accordance with N.J.A.C. 7:26A-3.17, Delaware River Recycling, Inc. shall submit an annual report containing monthly summary statements of the information required pursuant to Condition D.1 above to the NJDEP on or before February 1 of each year, for the previous calendar year. The summaries shall include monthly totals of the amount of recyclable material received from each customer by the municipality of origin. Furthermore, the summaries shall include monthly totals of the amount of recyclable product transferred to each end-market. The summaries shall also include the amount of residue disposed of during each month. An annual fee will be paid to the Department on May 1, in accordance with N.J.A.C. 7:26A-2.1(b)1;

b. Residue Disposal

Delaware River Recycling, Inc. shall certify in writing to the Department that all residue generated at the recycling center has been disposed of in accordance with the solid waste management rules at N.J.A.C. 7:26. The certification shall be submitted annually as part of the annual report;

c. Tonnage Report

Delaware River Recycling, Inc. shall provide a recycling tonnage report by February 1 of each year to all municipalities from which recyclable material was received in the previous calendar year. The report shall detail the amount of each source separated recyclable material, expressed in tons or cubic yards, brought to the recycling center. Those persons specifying this information in cubic yards shall also indicate the conversion ratio of the materials from cubic yards to tons.

One original and one copy of the annual report and tonnage report shall be submitted to:

New Jersey Department of Environmental Protection
Division of Solid and Hazardous Waste
Chief, Bureau of Recycling and Planning
P.O. Box 414
Trenton, New Jersey 08625-0414

Failure to comply with any or all conditions of this Approval will result in the NJDEP seeking relief under the Solid Waste Management Act, N.J.S.A. 13:1E-1 et seq. Specifically, each day of failure to so comply shall constitute a separate violation on the basis of which a penalty shall be assessed pursuant to N.J.S.A. 13:1E-9 and may subject Delaware River Recycling, Inc. to regulation as a solid waste facility pursuant to N.J.S.A. 13:1E-1 et seq. and N.J.A.C. 7:26-1 et seq.

The issuance of this Approval and the conditions of operation identified herein shall not be interpreted as relieving the applicant of his responsibility to secure and maintain all other applicable federal, State and local permits or similar forms of authorization relating to the construction and operation of this facility.
